# Notice of Annual General Meeting

for the year ended 31 December 2012

---

**Notice is hereby given that the Fifty Third Annual General meeting of members of First Aluminium Nigeria Plc will be held on Wednesday May 15th at Lagos Airport Hotel, 111 Obafemi Awolowo Way, Ikeja, Lagos at 11:00 am prompt to transact the following business:**

## Ordinary Business

1. To approve the Report of the Directors, the audited Financial Statements for the year ended 31 December 2012 and the Reports of the Auditors and Audit Committee thereon.
2. To re-elect Directors Joseph Makoju, Engr Mike Okolo and Ben Elfrink  
Special notice is hereby given for the re-election of Alhaji S. S. Baffa as a director of the Company notwithstanding that he is over 70 years old.
3. To authorize the Directors to fix the remuneration of the Auditors.
4. To elect members of the Audit Committee.

## Special Business

5. To approve the remuneration of the Directors

## Notes:

1. **Proxy**  
A member of the Company entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote instead of him. A proxy need not be a member of the Company. A form of proxy is enclosed with this notice.

Proxy forms must be completed and deposited at the office of the Company's Registrars, Union Registrars Ltd., 2 Burma Road, Apapa, Lagos not later than 48 hours before the time of the meeting.

2. **Closure of Register of Members**  
The Register of members and Transfer Books of the Company will be closed from Monday May 6th 2013 to Friday May 10th 2013 (both days inclusive) for the purpose of updating the register.
3. **Audit Committee**  
Any member may nominate a shareholder as a member of the Audit Committee by giving notice in writing of such nomination to the Company Secretary at least 21 days before the Annual General Meeting.
4. **Unclaimed Dividend Warrants**  
Dividend warrants remain unclaimed or are yet to be presented for payment. Members affected are advised to either write to the Company Registrar or call at their office during normal working hours. A list of unclaimed dividends is attached at the end of the financial statements.

Earnings per share is based on the number of shares in issue as at 31 December 2012.

# Chairman's Statement

for the year ended 31 December 2012

---

## Restructuring

During the fourth quarter our business saw a sudden decrease in order activity firstly in the Aluminium division but then in Packaging as the whole Nigerian economy slowed. This occurred at a time when we were considering plans for 2013 and the Board concluded that future markets were uncertain.

During November we considered a number of strategic options for the group's future but given the ongoing uncertainty surrounding the economy the Board decided that the operations of the business should concentrate resources on those activities that would be cash generative and profitable.

Notwithstanding the progress that had been made at improving asset utilization and quality of own manufactured aluminium coils in the last 2 years it became clear that the Mill could not compete with imported products and the decision was made to stop manufacture which led to the direct loss of 215 skilled jobs.

For our supply chain the position is worse as each manufacturing job is generally considered to support 3 others because we are major consumers of materials, spares, consumables and service and wherever possible we have endeavored to source locally.

We have not given up hope that manufacturing is completely finished in Port Harcourt however. The Mill has effectively been mothballed meaning that if in the future a Government creates an environment where local manufacturing is no longer disadvantaged we can restart operations. We cannot foresee that happening in the near future which is why we have impaired the fixed assets, and written down inventory to estimated realisable value.

New financial reporting standards mean that the costs of closure are no longer considered to be exceptional but are shown as discontinued operations in our annual accounts to provide for a fuller explanation and better understanding of the underlying business that goes forward into 2013. The total cost of closing, the manufacturing is calculated to be N525million comprising impairment of property, plant and equipment N305m impairment of the inventories N163m and employment termination costs of N58m

## International Financial Reporting Standards ('IFRS')

Following a meeting of the Nigerian Federal Executive Council in July 2010 January 1, 2012 was chosen as the effective date for convergence of accounting standards in Nigeria with IFRS. IFRS has been accepted or adopted for public accounting purposes in over 100 countries and adoption is seen as improving comparability and transparency.

FAN has had to prepare 2012 and 2011 financial statements and the opening balance sheet (as of 1 January 2011) by applying the IFRSs effective at 31 December 2012. Certain figures for 2010 and 2011 have been restated to comply with IFRS.

Since IAS 1 requires that at least one year of comparative prior period financial information be presented, the opening balance sheet is 1 January 2011. This means that our first financial statements should include at least:

- three balance sheets (statements of financial position)
- two statements of comprehensive income
- two separate income statements (if presented)
- two statements of cash flows
- two statements of changes in equity
- and related notes, including comparative information

## Corporate Governance

The Board sets the tone for the way in which Fan operates and we remain committed to running the business in a responsible way. The Board considers current performance, strategy, risk management, the internal control framework and other aspects of corporate governance throughout the year. Some of the discussions involve the wider team of

# Chairman's Statement

*for the year ended 31 December 2012*

---

executive officers so that executive management is able to disseminate the values and standards of the Board throughout the company and ensure these are embedded at all levels.

## **Suppliers**

Fair treatment of suppliers remains a key priority for FAN particularly in challenging market conditions where smaller companies in particular rely on our payments for balanced cash flow. The company's policy is to settle agreed liabilities within the terms established with suppliers.

## **Corporate social responsibility**

FAN is committed to embedding sound corporate social responsibility policies and practices as an integral part of our business and is continuing to make progress in its environmental performance, employee engagement and health and safety. Health and Safety policy aims to develop a culture that is committed to the prevention of injuries and ill health to its employees and others that may be affected by its activities. The Board of Directors and senior staff are responsible for implementing this policy and ensure that health and safety considerations are always given priority in planning and in day-to-day activities. Our Health and Safety Policy has been updated to reflect the latest legislative and regulatory requirements.

## **Staff and Customers**

I wish to sincerely thank our customers and staff for their ongoing support and commitment to our business. I am confident that group management is moving the business forward in the best interest of all stakeholders

## **Dividend**

In light of the financial performance in 2012 your Board does not recommend a declaration of dividend.

## **Outlook**

The trading environment for 2012 was every bit as difficult as anticipated with spending down and input costs up. We enter 2013 encouraged that we have grown market share in challenging conditions. The business is well positioned for growth in a still uncertain economic environment.

ALHAJI S.S. BAFFA

March 13 2013

# Managing Director's Review

for the year ended 31 December 2012

---

## Introduction

In general volumes have been comparable with 2011 although the markets have stabilised for Packaging and declined for Sheets.

## Aluminium sheets

In order to bring the company to consistent profit levels, at the end of 2010 a strategy had been implemented, with as main focus points:

- Puts the customer in the chair of honour again
- Focus on core activities
- Adapt the cost base to the turnover.

At the end of 2011 Executive management realised that in some areas the level of local management needed to be strengthened. In 2012 we continued to execute the strategy and in several key positions new local managers have been employed. The improved operational activities and the cost awareness program resulted in substantial savings. In a roofing market that is considered to have declined sharply. First Aluminium has sold slightly more than in 2011. Our market share thereby has improved sharply and the cost structure has improved considerably.

Sadly the circumstances for manufacturing in Nigeria deteriorated quicker than we could improve the organisation.

- The roofing market was under volume severe pressure, mainly due to lack of Government spending.
- Importation of substandard materials continued - ruining the market in South-South.
- High inflation levels caused an increase in operational cost
- Interest rates increased over prior year
- Although those wage elements that are in our control have been largely frozen, the elements that are negotiated on federal level have risen by disproportionately large proportions
- Lack of reliable gas supply from Oando meant that production was not possible for 35 days
- As part of the privatization of the electricity industry our tariff was increased by 83%.

The Company has, for a long time, been under intense pressure from both its customers and shareholders to compete more effectively with the flood of cheap, often substandard, imported coils. The challenge for FAN has been to achieve this without lowering its on-going commitment to quality. Initially we have tried to lower the cost per unit by increasing our own sheet manufacturing. Although the increase has been substantial, we have seen insufficient cost benefits, mainly due to external reasons.

In order to try to protect the aluminium manufacturing industry from collapsing completely we, as FAN, and in cooperation with the Association of Primary Aluminium Producers (APAP) (which is a subgroup of the Manufacturers Association of Nigeria (MAN)), have tried to convince government on the situation at hand. Sadly no changes needed to protect the industry has been announced so far which is why we made the decision to cease own manufacturing of aluminum coils and sheets

## Risks and uncertainties

The effective identification and management of risks and opportunities across the group is necessary to ensure the delivery of the groups objectives. The board has overall responsibility for ensuring risk is effectively managed across the group. The Board has delegated to the Audit Committee the responsibility for reviewing the effectiveness of the group's system of internal control and the procedures for identification, assessment, management and reporting of risk. Set out below is what the Board considers to be the principal risks and uncertainties facing the group. These are largely unchanged since 2011.

Strategic risk	Failure to grow. The group's markets are competitive and we expect that to continue. Our competitive position results from a range of factors including quality and performance of our products
----------------	---

## Managing Director's Review

for the year ended 31 December 2012

---

Market risk	<p>Political and economic conditions –a sustained period of economic weakness in our markets could have a material adverse effect on the group's results. The group has no influence over inflation, interest rate, exchange rate or other economic factors affecting its business.</p> <p>Commercial relationships. The group has well established long term relationships with a number of customers and suppliers.</p>
Financial risk	<p>Movement in metal prices. Aluminium price volatility is the single largest price exposure facing the group. Prices are set with major suppliers based upon the average LME rates over previous periods. Our competitors also source their material from overseas and are exposed to the same risk so that in the event of major cost increases the whole market would be forced to pass an increase on to its customers.</p> <p>Exchange rate volatility brings uncertainty in business planning, procurement costs and income statement exposures. Our risk management committee sets agreed risk tolerance levels of exposure to \$US.</p>
Operational risk	<p>Availability of material – failure of key supplier. The group sources its product from a leading metal supplier that claims to be the third largest in the world in this market. As an international commodity Aluminium is quoted on and available from a number of international markets.</p> <p>Recruitment and retention of key staff. The departure of senior management or the lack of an appropriately skilled workforce could impact the group's ability to perform in line with expectations.</p>

### Liquidity and going concern

The directors have assessed the future funding requirements of the group and compared it to committed bank facilities for the 15 months from the balance sheet date. The assessment included a sensitivity analysis of the key factors which could affect future cash flow and funding requirements. Having undertaken this work the directors are of the opinion that the group has adequate resources to fund its operations for the foreseeable future and so determine that it is appropriate to prepare the accounts on a going concern basis.

BERNARDUS ELFRINK

Managing Director

March 13 2013

# Directors' Report

for the year ended 31 December 2012

---

The Directors submit to the members of the Company, the audited Financial Statements of the group for the year ended 31 December 2012.

## 1. PRINCIPAL ACTIVITIES

The Company is engaged in the manufacture of aluminium coils, sheets, and laminate, aluminium and seamless tubes. The Company's finished products are used as raw materials by the secondary aluminium and packaging industries.

## 2. REVIEW OF THE BUSINESS

Foreign exchange was available throughout the year, but expensive on the average when compared to previous year. The exchange rate began the year at N160/\$1, it appreciated within quarter 2 and eventually closed the year at N158/\$1

Bank lending rates rose from around 15% to 18% PA in the course of the year. The minimum rediscount rate (MRR), CBN's bench mark for Bank lending was increased by 4 percentile points in the year, as the CBN tried to use the MPR window to curtail inflation and exchange rate devaluation. MPR was 12% at year end.

We imported aluminium ingot raw material from Europe because we could not purchase sufficient supplies locally. The import duty rate on aluminium ingot was maintained at 5% throughout the year.

LME, which represents approximately 70% of the material cost of our business, rose from \$1,970 to \$2,308 per tonne during the year and closed at \$2,072

## 3. FUTURE DEVELOPMENTS IN THE BUSINESS

The Company continues to encourage the usage of aluminium rolled products in the country. The Company plans to diversify its product base.

## 4. BOARD OF DIRECTORS

The Directors of the Company during the year ended 31 December, 2012 were:

Alhaji Sulaiman Sulaiman Baffa	-	Chairman - Non Executive
Mr. Ben Elfrink	-	Managing Director
Chief John Nwabueze Ajene	-	Non-Executive Director
Engr. Joseph Oyeyani Makoju, mni	-	Non-Executive Director
Chief Henry Chukwuma Okolo	-	Non-Executive Director
Mr. John Dixon	-	Commercial Director
Engr. Mike O.Okolo	-	Executive Director
Miss Eniye Ambakederemo	-	Non Executive Director

In accordance with the Company's Articles of Association, Alhaji Baffa, Engr Joseph Makoju, Engr Mike Okolo and Ben Elfrink retire by rotation.

All the retiring directors, being eligible, offer themselves for re-election.

## 5. SUBSTANTIAL SHAREHOLDING

Alucon Holdings S.A held 1,591,305,483 (representing 75%), ordinary shares of the company. No other shareholder held more than 5% of the issued shares of the company.

## 6. FREE FLOAT

The free float of a company is the proportion of shares that are held by investors who are likely to be willing to trade. It is a measure of how many shares are reasonably liquid. It therefore excludes those shares held by strategic shareholders. Strategic shareholdings typically include those of directors and those connected to them. Free float as at December 31, 2012 is 22 % (2011 – 23 %)

**7. DIRECTORS' INTEREST IN THE SHARES OF THE COMPANY**

The interests of the Directors in the shares of the Company as at 31 December 2012 according to the Register required to be kept under Section 275 of the Companies And Allied Matters Act, CAP C20 LFN 2004 and the listing requirements of the Nigerian Stock Exchange were as follows:

Ordinary shares of 50 kobo each

	31/12/12	31/12/11
Alhaji Sulaiman Sulaiman Baffa	19,000,100	19,000,100
Chief John Nwabueze Ajene	524,800	524,800
Chief Henry Chukwuma Okolo	1,013,333	1,013,333
Engr. Joseph Oyeyani Makoju, mni	-	-
Mr Ben Elfrink	1,891,800	-
Mr. John Dixon	1,261,200	-
Engr. Mike O. Okolo	77,000	77,000
Miss Eniye Ambakederemo	-	-

There were no changes between the balance sheet date and the date of approval of these financial statements.

Chief J. N. Ajene is interested in Chartered Aluminium Systems Plc which engages in trading transactions with the Company. There were no transactions with his company during the year

No other director has notified the company for the purpose of Section 277 of the Companies And Allied Matters Act, CAP C20 LFN 2004 of any declarable interest in contracts with which the company is involved.

**8. RESULTS FOR THE YEAR**

The results for the year are summarized as follows:

	Group N'm	Company N'm
Trading loss	640	652
Cost of discontinued operation	525	525
Loss before taxation	1,053	1,065
Taxation (Credit)	(49)	(49)
Other comprehensive loss on financial assests	1	1
Total comprehensive loss	1,005	1,016

**9. ACQUISITION OF THE COMPANY'S SHARES BY THE COMPANY**

As at 31 December 2012 the Company did not acquire any of its shares and the disclosure under Schedule 5 of the Companies and Allied Matters Act, CAP C20 LFN 2004 is not applicable.

**10. SIGNIFICANT CHANGES IN PROPERTY, PLANT and EQUIPMENT**

Details of movements during the year are as set out in Note 7 to the Financial Statements

**11. SIGNIFICANT POST BALANCE SHEET EVENTS**

There have been no significant events occurring after 31 December, 2012, which should have been included in these Financial Statements.

# Directors' Report

for the year ended 31 December 2012

---

## 12. DISTRIBUTORS OF THE COMPANY'S PRODUCTS

The Company's finished products are sold as raw materials to a number of secondary aluminium and packaging companies directly. No distributors were used.

## 13. RESEARCH AND DEVELOPMENT

The Company is committed to research and development activities to secure its position as a market leader in its industries.

The Company recognizes that per capita income consumption of aluminium in Nigeria is now improving, although it is still low compared with other countries, including BRICS. Consequently, the Company on a continual basis, allocates funds to develop efforts to broaden the usage of aluminium in the country.

## 14. DONATIONS AND GIFTS

There were neither donations nor gifts that need to be disclosed in this financial statement as required by the Companies and Allied Matters Acts.

## 15. EMPLOYEE'S HEALTH, SAFETY AND WELFARE

The Company's policy is to ensure that a high quality of hygiene and good housekeeping is maintained. The work environment is kept conducive and safe.

There is a designated Health & Safety Officer for each location, and an external safety consultant visits the Company regularly to inspect the facilities, carry out safety audit and advise on safety issues.

The Company also carries out safety and fire drills regularly.

Employee's health is of prime importance and the Company operates its own clinics at its factories and reimburses the cost of outside medical treatment.

Canteen facilities are available in the company's factories.

## 16. EMPLOYEE'S INVOLVEMENT AND TRAINING

In line with the Company's policy of continual development of its human resources, a series of courses and training programmes were organised for employees in various departments.

The courses were well designed to broaden their technical/professional knowledge and managerial skills.

Through the meetings of the joint consultative councils and quarterly meetings with the Group Managing Director the Company ensures that all employees are informed of the state of the Company's operations and corporate activities.

## 17. REPORTING TO SHAREHOLDERS

The Group sends to each shareholder a copy of the Annual Report and Financial Statements.

The Report can be downloaded and printed from the company's website

### 18. AUDITORS

In accordance with Section 357(2) of the Companies and Allied Matters Act, CAP C20 Laws of the Federation of Nigeria 2004, Messrs BDO Professional Services have indicated their willingness to continue in office as auditors of the Company.

BY ORDER OF THE BOARD

A handwritten signature in black ink, appearing to be a stylized 'B' followed by a flourish.

POPOOLA NOMINEES LIMITED  
Secretaries to the Company  
March 13 2013

# Corporate Governance Statement

for the year ended 31 December 2012

---

## A. THE BOARD

First Aluminium Nigeria Plc is run by a Board of eight Directors. Three of the Directors are executive Directors while others, including the Chairman, are non-executive Directors. The non-executive Directors are accomplished individuals from varying backgrounds, each with a track record of personal devotion to standards of excellence and ethical conduct. None of them has any personal business dealings or other relationship with the Company which could impair the exercise of independent judgement.

The Board is responsible for overall direction, strategy, performance and management of the Group. Day-to-day management is vested in the Executive Directors headed by the Managing Director who has overall responsibility for implementing the policies of the Board.

The Board meets at least four times a year. Meetings of the Directors are scheduled a quarter in advance and the Agenda and reports of operations to be deliberated upon at each meeting are circulated 7 days before the scheduled date of the meeting.

The Company Secretary reports to the Board at its meetings on, amongst other things, the state and quality of corporate governance in the Company.

The total number of board meetings held in the year was 6 and attendance is as indicated below

Director	Attendance
S. S. Baffa	4
B.Elfrink	5
W.J. Dixon	6
M. O. Okolo	6
J. N. Ajene	4
H. C. Okolo	3
J. O. Makoju	1
E. Ambakederemo	5

## B. FINANCE REPORTING & AUDIT

The Board has the ultimate responsibility for ensuring the integrity of the Company's financial reporting.

The Board is assisted by an Audit Committee and a firm of auditors which has no other business or other relationship with the Company and is therefore able to exercise the fullest independent judgement.

The Audit Committee (governed by a code issued by the Securities & Exchanges Commission and additional guidelines issued by the Board of the Company) meets at least three times a year to review the state of internal controls and corporate governance. The Audit Committee interfaces with the out-sourced Internal Audit Function and gives internal audit directions and guidance.

The total number of audit committee meetings held in year 2012 was 3 and attendance is as indicated below;

Member	Attendance
T.A. Okoronkwo	3
J. N. Ajene	3
S. O. Ogunnowo	3
G. O. Kabiawu	3
W.J. Dixon	3
H. C. Okolo	2

Directors are of the opinion that the Company's internal control system allows for an untainted and true representation of the Company's financial affairs. During 2012 one of the principal roles of the committee was to approve the Group's implementation of IFRS.

# Corporate Governance Statement

for the year ended 31 December 2012

## C. ETHICS AND COMPLIANCE

The Company is committed to corporate ethical conduct and observance of due process and ever mindful of all prescribed laws and regulations relevant to its operations. It maintains relevant financial and legal structures provided for by law.

## D. SUB-COMMITTEES OF THE BOARD

### i. EXECUTIVE MANAGEMENT

This Committee comprises of all Executive Directors and senior management staff and chaired by the MD. It is responsible for setting overall corporate targets, agreeing and monitoring corporate and divisional priorities, allocating resources and supervising the day-to-day affairs of the business.

### ii. RISK MANAGEMENT

This Committee is made up of all Executive Directors and Divisional Heads and chaired by the MD. Its purpose is to review the Company's operations to ensure that all risks to which the business is exposed are identified and managed proactively. Regular presentations are made to the Board for their consideration.

In addition the Company maintains adequate insurance cover to protect the Company against liability and asset loss.

The Group uses financial instruments, in particular forward currency contracts, to manage the risks associated with its underlying business activities and the financing of those activities. The Group does not undertake any speculative trading.

### iii. MANAGEMENT PERFORMANCE REVIEW & SUCCESSION PLANNING

This Committee periodically reviews and evaluates the performance of top executives reporting directly to the MD. It devises objective measures for grooming suitable successors to future vacant senior position to sustain the tradition of a smooth and flawless transition. It is made up of senior Human Resources Managers from each unit and the Executive Directors and chaired by the MD.

The above three sub-committees of the Board met concurrently 10 times in the year and the attendance are as indicated below:

<b>Number of meetings held was 10</b>	<b>Attendance</b>
B. Elfrink	10
W.J. Dixon	9
M. O. Okolo	8
A. Vitankar	10
C. O. Iwunwa	8
K. Ayibowu / W Budzilla	10

### iv. CORPORATE STRATEGY & PERFORMANCE REVIEW

This Committee is made up of all Board members and chaired by the non-executive Chairman. It monitors and evaluates the overall performance of the company in all domains of its activities including its relationship with all key stakeholders with the aim of ensuring that the Company maintains its position as a commercially successful enterprise and a well respected corporate citizen.

The sub-committee met 10 times during the year and attendance is as per the Board meeting set out on page 14.

## Statement of Directors' Responsibilities

*for the year ended 31 December 2012*

---

This statement, which should be read in conjunction with the Report of the Auditors, is made with a view to setting out for shareholders, the responsibilities of the Directors of the Company with respect to the financial statements.

In accordance with provisions of the Companies and Allied Matters Act, the Directors are responsible for the preparation of annual financial statements which give a true and fair view of the state of affairs of the Company as at the end of the financial year and of the profit and loss for the financial year.

These responsibilities include ensuring that:

- a. Appropriate internal controls are established both to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.
- b. The Company keeps accounting records which disclose with reasonable accuracy the financial position of the Company and which ensure that the financial statements comply with the requirements of the Companies and Allied Matters Act.
- c. The financial statements comply with IFRS subject to any material departures being disclosed and explained.
- d. The Company has used suitable accounting policies supported by reasonable and prudent judgement and estimates.
- e. The financial statements are prepared on a going concern basis, unless it is presumed that the Company will not continue in business.

# Audit Committee's Report

*for the year ended 31 December 2012*

---

To the members of the First Aluminium Nigeria Plc

In compliance with the provision of Section 359 sub-section 6 of the Companies and Allied Matters Act, CAP C20 LFN 2004 we:

- i. Reviewed the scope and planning of the audit requirements and found them adequate.
- ii. Reviewed the financial statements for the year ended 31 December 2012 and are satisfied with the explanations obtained.
- iii. Reviewed the External Auditors' Management Report for the year ended 31 December 2012 and are satisfied that Management is taking appropriate steps to address the issues raised.
- iv. Ascertained that the accounting and reporting policies of the Company for the year ended 31 December 2012 are in accordance with International Financial Reporting Standard and agreed ethical practices

The External Auditors confirmed having received full cooperation from the Company's management and that the scope of their work was not restrained in any way.

## REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF FIRST ALUMINIUM NIGERIA PLC AND ITS SUBSIDIARY COMPANY

We have audited the accompanying financial statements of First Aluminium Nigeria Plc (“the company”) and its subsidiary company (“the Group”) for the financial year ended 31 December 2012, which comprises the income statement, statement of financial position, statement of changes in equity, statement of cash flows for the year then ended, and notes to the financial statements on page 36 to 53.

The financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the Federal Government of Nigeria.

### Directors’ responsibility for the Financial Statements

The directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, and in compliance with relevant provisions of the Financial Reporting Council of Nigeria Act, No 6, 2011 and the Companies and Allied Matters Act, CAP C20 LFN 2004. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

### Auditors’ responsibility

Our responsibility is to express an independent opinion on the financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform our audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal controls relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Opinion

In our opinion, the financial statements give a true and fair view of the state of affairs of the Group’s financial position as at 31 December 2012 and of its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and in compliance with the relevant provisions of the Financial Reporting Council of Nigeria Act No 6, 2011, and the Companies and Allied Matters Act, CAP C20 LFN 2004.

### Report on other legal requirements

The Companies and Allied Matters Act, CAP C20 LFN, 2004 requires that in carrying out our audit, we consider and report to you on the following matters. We confirm that:

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion, proper books of account have been kept by the Company; and
- iii) the Company’s statement of financial position and income statement are in agreement with the books of account.

# Significant Accounting Policies

*for the year ended 31 December 2012*

---

## **A. General Information**

First Aluminium Nigeria PLC ('the company') and its wholly owned subsidiary (together 'the group') manufacture and distribute aluminium coils, sheets, and laminate, aluminium and seamless tubes.

The company is a public limited company incorporated and domiciled in Nigeria. The address of its registered office is 2 Akilo Street, Ogba, Ikeja, Lagos. The group consolidated financial statements were authorized for issue by the board of directors on 13 March 2013

## **B. Summary of significant accounting policies**

The principal accounting policies adopted in the preparation of these Consolidated Annual Financial Statements are set out below.

## **C. Basis of presentation**

The Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards ('IFRS') issued by the International Accounting Standards Board. The Consolidated Financial Statements have been prepared in the functional currency (Nigerian Naira), rounded to the nearest thousand, and prepared under the historical cost convention as modified by the revaluation of land and buildings, available for sale investments and financial assets and financial liabilities at fair value through the profit and loss.

## **D. Significant estimates and judgments**

The preparation of accounts in conformity with IFRS requires management to make judgments, estimates and assumptions that effect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based upon historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

The significant judgments made in the accounts for the year ended December 31, 2012 are:

End of service benefits – these are more fully described in accounting policy O below and in note 19 to the financial statements; and

Expected future life of specialized plant and equipment – more fully described in accounting policy I below and note 7 to the financial statements.

## **E. Consolidation**

Subsidiary undertakings, which are those companies in which the holding company, directly or indirectly has an interest of more than half the voting rights or otherwise has power to control, have been consolidated. All intercompany transactions, balances and unrealized profits and losses on transactions between group companies have been eliminated. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the holding company.

The Group has elected not to apply IFRS 3 Business Combinations retrospectively.

## **F. Turnover**

Turnover is recognized when goods are delivered to customers and services completed, and is disclosed net of any trade discount, returns or allowances.

## **G. Accounting for contracts**

Contracts are accounted for using the completed – contract method with revenue and costs being recognized at the completion of the contract.

# Significant Accounting Policies

for the year ended 31 December 2012

---

## H. Foreign currency

Amounts denominated in foreign currency are translated into the functional currency at the date of the transaction. Foreign currency monetary assets and liabilities are translated into the functional currency at the exchange rate applicable at the balance sheet date. Exchange differences are taken to operating profit.

## I. PROPERTY, PLANT, EQUIPMENT and depreciation

Items of property, plant and equipment are stated at cost or valuation, less accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets at the following annual rates;

Plant and machinery	10%
Furniture and equipment	20%
Motor vehicles	25%

Buildings are depreciated over the unexpired lease period. Leasehold land is not depreciated.

A gain or loss on disposal is determined by comparing the proceeds with the asset's carrying amount and is recognized in the income statement.

Buildings are professionally revalued at approximately 4 yearly intervals by independent qualified surveyors and valuers. The basis for such revaluation is open market which means current cost of reconstruction together with improvements in today's market adequately depreciated to reflect physical wear and tear, age, functional and economic obsolescence plus the site value in its existing use as at the date of inspection.

The principal plant and equipment assets are depreciated over their useful life as determined by the plant engineers and certified by the unit head. In many cases this means that old assets that have been fully depreciated are 're-lived' since the company still uses them and continues to do so so extending their estimated life. As at December 31 2011 the estimated future life of the sheet mill assets was 8 years and the estimated future life of the packaging machines was 5 years.

Expenditure subsequent to 1 Jan 2011 has been capitalised only when it is probable that it will give rise to future economic benefits in excess of the originally assessed standard of performance or when it significantly extends the useful life of an asset.

At each balance sheet date the Group reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

## J. Finance leases

Leased assets are stated at their fair values and are capitalized on installation, and depreciated in line with the company policy on depreciation of the related class of property, plant and equipment assets. The finance cost of the leases are charged to the profit and loss account in accordance with the lease terms.

## K. Long term investment

Investments in subsidiaries are stated at the lower of cost or the company's share of their net tangible asset values at the year end.

## L. Trade receivables

Trade receivables are recognized initially at calculated fair value less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Receivables are stated at their gross value less appropriate provision for bad and doubtful balances.

## **M Cash and cash equivalents, derivative financial instruments and other financial instruments**

Cash at bank and in hand includes short term deposits with a maturity date of three months or less .

Derivative financial instruments, in particular forward exchange currency contracts can be used to manage the financial risks associated with the underlying business activities and the financing of those activities. The group does not undertake any trading activity in derivative financial instruments. Forward contracts are the only derivative financial instrument the group intends to use at this time – principally because of lack of other products to hedge Naira exchange risk.

Other financial instruments

All other financial instruments are recognized at fair value plus transaction costs. Unhedged borrowings are measured at amortised cost and all other financial assets and liabilities including short term receivables and payables are measured at amortised cost less any impairment provision.

## **N Inventories**

Inventories are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the averaging method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based upon normal operating capacity). At the reporting date inventories are assessed for obsolescence and impaired as necessary . If inventory is impaired the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is immediately recognized in profit or loss.

## **O Retirement benefits scheme**

The Company operates a gratuity scheme and pension fund scheme for the benefit of its employees.

Pension Fund Scheme – The Company, in line with the provisions of the Pension Reform Act 2004, operates a defined contribution pension scheme for its employee. Contributions to the scheme are funded through payroll deductions, while the Company's contribution is charged to the profit and loss account.

End of Service Gratuity Scheme ('EOSB') - Members of staff who have spent 5 years or more in employment are entitled to a one-off payment upon retirement (for whatever reason). Retirement from the Company is mandatory upon reaching 55 years . The payment is based upon the final emoluments of the staff and the length of service. The benefit is calculated annually. Gains or losses on curtailment or settlement are recognised in the profit or loss when the curtailment or settlement occurs. The liability recognised is the present value of the obligation determined on the assumption that every employee remains until their mandatory retirement age.

## **P Taxation**

Income tax – Income tax is provided on taxable profits at the current statutory tax rate.

Deferred tax – Provision for deferred taxation is made when income, expenditure or depreciation falls into different periods for accounting and for taxation purposes. The provision is calculated at the rate of taxation current at the balance sheet date.

## **Q Dividend**

Dividend distribution to the Company Shareholders is recognised as a liability in the Financial Statements in the year in which the dividends are approved by the Company Shareholders.

Unclaimed dividends are amounts payable to shareholders in respect of dividends previously declared by the Company which have remained unclaimed by the shareholder. In compliance with Section 385 of the Companies and Allied Matter Act (Cap C20) Laws of the Federation of Nigeria 2004, unclaimed dividends are transferred to general reserves after twelve years.

A list of unclaimed dividends is set out on pages 61 to 84

# Significant Accounting Policies

for the year ended 31 December 2012

---

## R Provisions and contingencies

Provisions are recognized when the group has a present obligation as a result of a past event and a reliable estimate can be made of a probable adverse income. Material contingent liabilities are disclosed unless the transfer of economic benefits is remote.

## S Segment information

For management purposes the group is organized into two operating segments – aluminium and packaging. A business segment is a distinguishable component of the Group engaged in providing products or services that are subject to risks and returns that are different from those of other business segment.

A geographical segment is a component of the Group engaged in providing products or services within a particular economic environment that are subject to risks and returns different from those of a segment operating in other economic environments.

Operating segments are reported in a manner consistent with internal reporting.

## T First time adoption of IFRS 1

IFRS 1 First-time Adoption of International Financial Reporting Standards sets out the procedures that an entity must follow when it adopts IFRSs for the first time as the basis for preparing its general purpose financial statements. It was first published in June 2003. FAN, as a first-time adopter is required to make an explicit and unreserved statement that its general purpose financial statements comply with IFRSs. FAN has had to select accounting policies based on IFRSs effective at 31 December 2012.

IFRS REPORTING PERIODS. FAN has to prepare 2012 and 2011 financial statements and the opening balance sheet (as of 1 January 2011) by applying the IFRSs effective at 31 December 2012.

- Since IAS 1 requires that at least one year of comparative prior period financial information be presented, the opening balance sheet is 1 January 2011. This means that our first financial statements should include at least:
- three balance sheets (statements of financial position)
- two statements of comprehensive income
- two separate income statements (if presented)
- two statements of cash flows
- two statements of changes in equity and
- related notes, including comparative information

### ADJUSTMENTS REQUIRED TO MOVE FROM NIGERIAN GAAP TO IFRSs AT THE TIME OF FIRST-TIME ADOPTION.

FAN has had to eliminate previous-GAAP assets and liabilities from the opening balance sheet if they do not qualify for recognition under IFRSs. If previous GAAP had allowed accrual of liabilities for “general reserves”, restructurings, future operating losses, or major overhauls that do not meet the conditions for recognition as a provision under IAS 37, these are eliminated in the opening IFRS balance sheet. If previous GAAP had allowed recognition of contingent assets as defined in IAS 37.10, these are eliminated in the opening IFRS balance sheet

### Recognition of some assets and liabilities not recognised under previous Nigerian GAAP

Conversely, FAN has to recognise all assets and liabilities that are required to be recognised by IFRS even if they were never recognised under previous GAAP. For example:

- IAS 39 requires recognition of all derivative financial assets and liabilities, including embedded derivatives.
- IAS 19 requires an employer to recognise a liability when an employee has provided service in exchange for benefits to be paid in the future. These are not just post-employment benefits (eg, pension plans) but also obligations for medical and life insurance, vacations, termination benefits, and deferred compensation. In the case of ‘over-funded’ defined benefit plans, this would be a plan asset.
- IAS 37 requires recognition of provisions as liabilities. Examples could include an entity’s obligations for restructurings, onerous contracts, decommissioning, remediation, site restoration, warranties, guarantees,

and litigation.

- Deferred tax assets and liabilities would be recognised in conformity with IAS 12.

## Reclassification

FAN has had to reclassify previous-GAAP opening balance sheet items into the appropriate IFRS classification.

Examples:

- IAS 10 does not permit classifying dividends declared or proposed after the balance sheet date as a liability at the balance sheet date. If such liability was recognised under previous GAAP it would be reversed in the opening IFRS balance sheet.
- Items classified as identifiable intangible assets in a business combination accounted for under the previous GAAP may be required to be reclassified as goodwill under IFRS 3 because they do not meet the definition of an intangible asset under IAS 38. The converse may also be true in some cases.
- IAS 32 has principles for classifying items as financial liabilities or equity.
- The reclassification principle would apply for the purpose of defining reportable segments under IFRS 8.
- The scope of consolidation might change depending on the consistency of the previous GAAP requirements to those in IAS 27. In some cases, IFRS will require consolidated financial statements where they were not required before.
- Some offsetting (netting) of assets and liabilities or of income and expense items that had been acceptable under previous GAAP may no longer be acceptable under IFRS. These can be seen in note 36 to the financial statements.

## Measurement

The general measurement principle – there are several significant exceptions noted below – is to apply effective IFRSs in measuring all recognised assets and liabilities.

Adjustments required to move from previous GAAP to IFRSs at the time of first-time adoption should be recognised directly in retained earnings or, if appropriate, another category of equity at the date of transition to IFRSs. These adjustments can be seen in note 36 to the financial statements.

In preparing IFRS estimates at the date of transition to IFRSs retrospectively, we used the inputs and assumptions that had been used to determine previous GAAP estimates as of that date (after adjustments to reflect any differences in accounting policies). FAN is not permitted to use information that became available only after the previous GAAP estimates were made except to correct an error.

## Changes to disclosures

Many new areas of disclosure are added that were not requirements under the previous GAAP and disclosures that had been required under previous GAAP will be broadened (such as related party disclosures notes 14, 17 and 32).

Disclosures in the financial statements of a first-time adopter

IFRS 1 requires disclosures that explain how the transition from previous GAAP to IFRS affected the entity's reported financial position, financial performance and cash flows. This includes:

1. reconciliations of equity reported under previous GAAP to equity under IFRS both (a) at the date of the opening IFRS balance sheet and (b) the end of the last annual period reported under the previous GAAP (Note 36).
2. reconciliations of total comprehensive income for the last annual period reported under the previous GAAP to total comprehensive income under IFRSs for the same period
3. explanation of material adjustments that were made, in adopting IFRSs for the first time, to the balance sheet, income statement and cash flow statement
4. if errors in previous GAAP financial statements were discovered in the course of transition to IFRSs, those must be separately disclosed
5. if the entity recognised or reversed any impairment losses in preparing its opening IFRS balance sheet,

# Significant Accounting Policies

for the year ended 31 December 2012

---

these must be disclosed

6. appropriate explanations if the entity has elected to apply any of the specific recognition and measurement exemptions permitted under IFRS 1 – for instance, if it used fair values as deemed cost

## Disclosures in interim financial reports

FAN's quarterly interim reporting from March 31, 2012 did not purport to comply with IAS 34 Interim Financial Reporting. Consequently explanatory information and a reconciliation was not required in the interim reports that immediately precedes the first set of IFRS annual financial statements as at December 2012.

## IAS 39 – Derecognition of financial instruments

A first-time adopter shall apply the derecognition requirements in IAS 39 prospectively for transactions occurring on or after 1 January 2004. However, the entity may apply the derecognition requirements retrospectively provided that the needed information was obtained at the time of initially accounting for those transactions.

## IAS 39 – Hedge accounting

The general rule is that the entity shall not reflect in its opening IFRS balance sheet (statement of financial position) a hedging relationship of a type that does not qualify for hedge accounting in accordance with IAS 39. However, if an entity designated a net position as a hedged item in accordance with previous GAAP, it may designate an individual item within that net position as a hedged item in accordance with IFRS, provided that it does so no later than the date of transition to IFRSs.

## IAS 27 – Non-controlling interest

IFRS 1 lists specific requirements of IAS 27 that shall be applied prospectively.

## Optional exemptions from the basic measurement principle in IFRS 1

There are some further optional exemptions to the general restatement and measurement principles.

They relate to:

- business combinations;
- share-based payment transactions
- insurance contracts
- fair value or revaluation as deemed cost
- leases
- employee benefits
- cumulative translation differences
- investments in subsidiaries, jointly controlled entities, associates and joint ventures
- assets and liabilities of subsidiaries, associated and joint ventures
- compound financial instruments
- designation of previously recognised financial instruments
- fair value measurement of financial assets or financial liabilities at initial recognition
- decommissioning liabilities included in the cost of property, plant and equipment
- financial assets or intangible assets accounted for in accordance with IFRIC 12 Service Concession Arrangements
- borrowing costs
- transfers of assets from customers
- extinguishing financial liabilities with equity instruments
- severe hyperinflation
- joint arrangements

Business combinations that occurred before opening balance sheet date.

An entity may keep the original previous GAAP accounting, that is, not restate:

- previous mergers or goodwill written-off from reserves

# Significant Accounting Policies

for the year ended 31 December 2012

- the carrying amounts of assets and liabilities recognised at the date of acquisition or merger or
- how goodwill was initially determined (do not adjust the purchase price allocation on acquisition)

However, an entity can elect to restate all business combinations starting from a date it selects prior to the opening balance sheet date.

In all cases, the entity must make an initial IAS 36 impairment test of any remaining goodwill in the opening IFRS balance sheet, after reclassifying, as appropriate, previous GAAP intangibles to goodwill.

The exemption for business combinations also applies to acquisitions of investments in associates and of joint ventures.

## Fair value or revaluation as deemed cost

Assets carried at cost (e.g. property, plant and equipment) may be measured at their fair value at the opening IFRS balance sheet date. Fair value becomes the 'deemed cost' going forward under the IFRS cost model. Deemed cost is an amount used as a surrogate for cost or depreciated cost at a given date.

If, before the date of its first IFRS balance sheet, the entity had revalued any of these assets under its previous GAAP either to fair value or to a price-index-adjusted cost, that previous GAAP revalued amount at the date of the revaluation can become the deemed cost of the asset under IFRS.

If, before the date of its first IFRS balance sheet, the entity had made a one-time revaluation of assets or liabilities to fair value because of a privatisation or initial public offering, and the revalued amount became deemed cost under the previous GAAP, that amount would continue to be deemed cost after the initial adoption of IFRS. This option applies to intangible assets only if an active market exists.

## IAS 19 – Employee benefits: actuarial gains and losses

An entity may elect to recognise all cumulative actuarial gains and losses for all defined benefit plans at the opening IFRS balance sheet date (that is, reset any corridor recognised under previous GAAP to zero), even if it elects to use the IAS 19 corridor approach for actuarial gains and losses that arise after first-time adoption of IFRS. If a first-time adopter uses this exemption, it shall apply it to all plans.

## IAS 21 – Accumulated translation reserves

An entity may elect to recognise all translation adjustments arising on the translation of the financial statements of foreign entities in accumulated profits or losses at the opening IFRS balance sheet date (that is, reset the translation reserve included in equity under previous GAAP to zero). If the entity elects this exemption, the gain or loss on subsequent disposal of the foreign entity will be adjusted only by those accumulated translation adjustments arising after the opening IFRS balance sheet date.

## IAS 27 – Investments in separate financial statements

The way the cost of an investment in the separate financial statements is measured on first-time adoption of IFRSs is to:

- allow first-time adopters to use a 'deemed cost' of either fair value or the carrying amount under previous accounting practice to measure the initial cost of investments in subsidiaries, jointly controlled entities and associates in the separate financial statements
- remove the definition of the cost method from IAS 27 and add a requirement to present dividends as income in the separate financial statements of the investor
- require that, when a new parent is formed in a reorganisation, the new parent must measure the cost of its investment in the previous parent at the carrying amount of its share of the equity items of the previous parent at the date of the reorganisation

Assets and liabilities of subsidiaries, associates and joint ventures: different IFRS adoption dates of investor and investee. If a subsidiary becomes a first-time adopter later than its parent, IFRS 1 permits a choice between two measurement bases in the subsidiary's separate financial statements. In this case, a subsidiary should measure its

## Significant Accounting Policies

for the year ended 31 December 2012

---

assets and liabilities as either:

- the carrying amount that would be included in the parent's consolidated financial statements, based on the parent's date of transition to IFRSs, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary or
- the carrying amounts required by IFRS 1 based on the subsidiary's date of transition to IFRSs

A similar election is available to an associate or joint venture that becomes a first-time adopter later than an entity that has significant influence or joint control over it.

If a parent becomes a first-time adopter later than its subsidiary, the parent should in its consolidated financial statements, measure the assets and liabilities of the subsidiary at the same carrying amount as in the separate financial statements of the subsidiary, after adjusting for consolidation adjustments and for the effects of the business combination in which the parent acquired the subsidiary. The same approach applies in the case of associates and joint ventures.

### New and amended standards adopted by the Group

The group has adopted the following new standards and amendments to the IFRSs beginning 1 January 2012:

- IFRS 7 Disclosures – Transfers of Financial Assets requires a number of changes to disclosures but does not affect reported results or net assets of the group
- Amendments to IFRIC 13 – Customer Loyalty Programmes – fair value of award credit requires that the fair value of award credits takes in to account the amount of discounts or incentives that otherwise would have been offered to customers that have not earned the credits. This has had no effect on the reported results or the net assets of the group.
- Amendments to IFRIC 14 Payments of a Minimum Funding Requirement has had no effect on the reported results or the net assets of the group. In many countries, laws or contractual terms require employers to make minimum funding payments for their pension or other employee benefit plans. This enhances the security of the retirement benefit promise made to members of an employee benefit plan. When determining the limit on a defined benefit asset in accordance with IAS 19.58, under IFRIC 14 entities are required to measure any economic benefits available to them in the form of refunds or reductions in future contributions at the maximum amount that is consistent with the terms and conditions of the plan and any statutory requirements in the jurisdiction of the plan. The entity's intentions on how to use a surplus (for instance, whether the entity intends to improve benefits rather than reduce contributions or get a refund) must be disregarded.
- IAS 12 Deferred Tax Recovery of Underlying Assets implements a so-called 'comprehensive balance sheet method' of accounting for income taxes which recognises both the current tax consequences of transactions and events and the future tax consequences of the future recovery or settlement of the carrying amount of an entity's assets and liabilities. Differences between the carrying amount and tax base of assets and liabilities, and carried forward tax losses and credits, are recognised, with limited exceptions, as deferred tax liabilities or deferred tax assets, with the latter also being subject to a 'probable profits' test. This has had no effect on the reported results or the net assets of the group.
- IAS 24 Related Party Disclosures - clarifies the definition of a related party for disclosure purposes and does not affect the reported results or net asset of the group. The objective of IAS 24 is to ensure that an entity's financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

The group has adopted the following new standards and amendments to the IFRSs that were not effective for the financial year beginning 1 January 2012 but adopted early by the group.

- IAS 1 Presentation of financial statements - which changes the disclosure of items presented in other comprehensive income in the statement of comprehensive income. The amendment requires entities to separate items presented in the statement of comprehensive income into two groups based on whether they may be recycled to the profit and loss in the future. Items that will not be recycled such as revaluation gains on property will be presented separately from items that may be recycled such as gains or losses on cash flow

hedges. Entities that chose to present other comprehensive income items before tax will be required to show the amount of tax related to the two groups separately.

### U IFRS Standards and interpretations in issue not yet adopted.

New standards and interpretations currently in issue but not effective for accounting periods until after January 1 2013 include:-

- IFRS 7 Disclosures – Transfers of Financial Assets requires a number of changes to disclosures but does not affect reported results or net assets of the group
- IFRS 9 Financial Instruments originally issued November 2009 as the first stage of the IASB's project to review and replace IAS 39 – Financial Instruments Recognition and Measurement. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortised cost. The determination is made at initial recognition. The main change is that in cases where the fair value option is taken for financial liabilities the part of the fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than in the income statement unless this creates an accounting mismatch.
- IFRS 10 Consolidated Financial Statements. The standard defines the principle of control and establishes control as the basis for determining which entities are consolidated in the consolidated financial statements. This standard will have no effect on the reported results or the net assets since the group comprises only the holding company and one non-trading wholly owned subsidiary.
- IFRS 11 Joint Arrangements. The standard requires a party in a joint arrangement to determine the type of joint arrangement in which it is involved by assessing its rights and obligations arising from the arrangement. Currently this standard will have no effect on the reported results or the net assets since the group has not entered into any such arrangements.
- IFRS 12 Disclosure of interests in other entities. The standard requires an entity to disclose information that enables users of financial statements to evaluate the nature of and risks associated with its interests in other entities and the effects of those interests in its financial position, financial performance and cash flows. Currently this standard will have no effect on the reported results or the net assets since the group does not have any interest in any entity other than its wholly owned non-trading subsidiary.
- IFRS 13 Fair value measurements. The standard sets out in a single IFRS a framework for measuring fair value and requires disclosures about fair value measurements. The IFRS explains how to measure fair value for financial reporting. It does not require fair value measurements in addition to those already required or permitted by other IFRSs and is not intended to establish valuation standards or affect valuation standards outside financial reporting. IFRS 13 aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs.
- IAS 19 Employee Benefits – requires that actuarial gains and losses are immediately recognised in the comprehensive income statement and eliminates the corridor method. This will not affect the reported results or net assets of the group until such time as it becomes effective
- IAS 27 (revised) Separate Financial Statements outlines the accounting and disclosure requirements for 'separate financial statements', which are financial statements prepared by a parent, or an investor in a joint venture or associate, where those investments are accounted for either at cost or in accordance with IAS 39 Financial Instruments: Recognition and Measurement or IFRS 9 Financial Instruments. The standard also outlines the accounting requirements for dividends and contains numerous disclosure requirements. Currently this standard will have no effect on the reported results or the net assets since the group does not have any interest in any entity other than its wholly owned non-trading subsidiary.
- IAS 28 (revised) Investments in Associates and Joint Ventures outlines how to apply, with certain limited

## Significant Accounting Policies

*for the year ended 31 December 2012*

---

exceptions, the equity method to investments in associates and joint ventures. The standard also defines an associate by reference to the concept of “significant influence”, which requires power to participate in financial and operating policy decisions of an investee (but not joint control or control of those policies). Currently this standard will have no effect on the reported results or the net assets since the group does not have any interest in any entity other than its wholly owned non-trading subsidiary.

- **Offsetting Financial Assets and Financial liabilities** – Amendments to IAS 32 outlines the accounting requirements for the presentation of financial instruments, particularly as to the classification of such instruments into financial assets, financial liabilities and equity instruments. The standard also provide guidance on the classification of related interest, dividends and gains/losses, and when financial assets and financial liabilities can be offset.

Except where stated the effect of these standards and interpretation has yet to be evaluated but the Group does not consider they will have a significant impact on the reported results or the net assets.

# Notes to the Financial Statements

*for the year ended 31 December 2012*

---

## I THE GROUP

First Aluminium Nigeria Plc was incorporated on 20th August 1960 as Alcan Aluminium of Nigeria Limited, a subsidiary of Alcan Aluminium Company of Canada, one of the world's foremost international aluminium companies.

The name of the company was changed to First Aluminium Company (Nigeria) Limited when it became a subsidiary of Alucon Holdings SA, a wholly owned subsidiary within the Inlaks Group, based in Monte Carlo.

On 10 May 1991, the company changed its name to First Aluminium Company (Nigeria) Plc and on 23rd July 1992, to First Aluminium Nigeria Plc. It became a quoted company on 5 November 1992.

The company has a Rolling Mill and is engaged in the manufacture of aluminium coils and sheets which represent the raw materials of the Nigerian aluminium industry. A continuous sheet painting line was commissioned in November 1992 to service the painted aluminium products market. The product from this painting line is branded Colortek. The company has a Packaging Division which manufactures tubes for the toothpaste, pharmaceutical, cosmetics and engineering industries in Nigeria from laminate plastics and from aluminium.

Aluminium City Limited was incorporated on 21 September 1995 as a wholly-owned subsidiary of First Aluminium Nigeria Plc and commenced business on 1 February 1996. It was engaged in the purchase and sale of aluminium products, building components and accessory items and maintained a strong commercial relationship with First Aluminium Nigeria Plc. During 2010 the Company ceased trading. Its assets less liabilities were transferred to the Rolling Mill division at no profit or loss. All retained employees transferred to the rolling mill and their service was treated as continuous.

The principal plant and equipment assets are depreciated over their useful life as determined by the plant engineers and certified by the unit head. In many cases this means that old assets are 're-lived' since the company still uses them and continues to do so. The reliving gives a reduction in future depreciation.

For expenditure subsequent to 1 Jan 2011 has been capitalised only when it is probable that it will give rise to future economic benefits in excess of the originally assessed standard of performance or when it significantly extends the useful life of an asset.

Leasehold land and buildings were last revalued in October 2009 by Jide Taiwo & Co, a professional firm of Estate Surveyors and Valuers on the basis of open market capital values. The assets are reflected in this financial statement at that valuation.

Assets other than Leasehold land and buildings are stated at cost.

Costs accumulated under construction work in progress are not depreciated until the completion and use of the assets.

Following the revaluation of Land and Building in 2009, the depreciation policy of the Company on Land and Building was changed such that the asset will be depreciated over the unexpired lease period.

Long leasehold	<b>4,400,364</b>	<b>4,117,200</b>
----------------	------------------	------------------

Included in plant and machinery is the value of a roll forming machine acquired under a finance lease in the Subsidiary Company.

The net book value at the year end is analysed as follows;

# Notes to the Financial Statements

for the year ended 31 December 2012

	2012	2011	2012	2011
	Group	Group	Company	Company
	N'000	N'000	N'000	N'000
Cost	80,611	80,611	-	-
Depreciation	(65,160)	(57,099)	-	-
	<b>15,451</b>	<b>23,512</b>	-	-

Had the leasehold land and building not been revalued their cost and net book value would be

	N'000
Cost	67,279
Depreciation	27,727

**Net** **39,552**

## 8 Investment in Subsidiaries;

First Aluminium Nigeria Plc has a wholly -owned subsidiary, Aluminium City Limited, which was incorporated on 21 September 1995. It commenced business on 1 February 1996 and was engaged in the purchase and sale of aluminium products, building components and accessories. Trading ceased in 2010 where upon its assets less liabilities were transferred to Rolly Mill at book value.

<b>9 LONG TERM RECEIVABLES</b>				
Balance 1 January	5,822	5,822	5,822	5,822
Impairment	(5,822)	-	(5,822)	-
<b>Balance 31 December</b>	<b>-</b>	<b>5,822</b>	<b>-</b>	<b>5,822</b>

This represents 4,735,146 ordinary shares of 50 kobo each of the company reserved for the Employees Trust Scheme. The indebtedness is being recovered from dividend accruing on these shares, in accordance with the trust deed, on the basis of 50% of the net dividend received by the trust on these shares. No dividend was received in 2012 financial year.

In view of the fact that the Company has not declared dividend for the past five years, the outstanding balance on Long term receivable has been impaired to zero value.

<b>Balance 31 December</b>	<b>445,491</b>	<b>396,644</b>	<b>445,491</b>	<b>396,644</b>

The deferred taxation arises due to the tax written down values of the assets being in excess of the net book value of such assets and the provision for gratuity liability which becomes allowable for tax purposes when paid.

## 11 LONG TERM ASSETS

This amount represents withholding tax (WHT) credit from the Federal Inland Revenue Service (FIRS).

This is the value of tax certificates received from customers who deducted WHT from the subsidiary Company's invoices and remitted to FIRS.

Under IFRS the Gratuity scheme in FAN is considered a Defined Benefit scheme since the company is obliged to pay a sum of money when an employee leaves or reaches the mandatory retirement age of 55 years. In recent years the gratuity to all junior and senior staff was paid out in cash so our liability principally represents our obligation to management.

Under GAAP the liability was an up-to-date calculation in the balance sheet but reflects only the historic value of the employee's retirement obligation and it quantifies what would be paid to every employee if they left immediately.

Under IFRS we have to calculate what the net present value of the future liability is assuming everybody works until 55. This involves estimating future wage inflation but also a rate at which cash could be invested so as to grow to maturity on each employee's 55th birthday. The gain on restructuring has arisen because we have extinguished the future obligation for staff who left before they reached 55.

The Group also operates a defined contribution pension scheme
